### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Reissue Applications*

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declaration is defective and a new declaration is required. In accordance with MPEP § 1414 and 37 CFR § 1.175, Applicant must specify the error upon which the reissue is being filed. It is NOT sufficient to merely state that applicant is broadening the claims, and indicate what subject matter the new claims contain and state that this is the error. In accordance with MPEP § 1414, Applicant needs to specifically identify by reference to the claims(s) (if this is where the error is) and the specific claim language (via word, phrase or expression) wherein the error lies and more importantly, how this causes their Patent to be wholly or partly inoperative or invalid. Also, the declaration's error statement is also deficient given that the claim 17 listed as the original error, was modified. Please make sure that the new declaration that is submitted in order to satisfy the requirement above, contains the statement that "...all errors up until the filing of this declaration, was without deceptive intent." Any departure from the original Patent constitutes an "error". There was no supplemental declaration filed to cover the "errors" in the supplemental amendment filed 6/14/2004.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-28 rejected as being based upon a defective reissue declaration under 35 U.S.C.

251. See 37 CFR 1.175. The nature of the defect is set forth above.

Art Unit: 2674

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

### ***Response to Amendment***

3. The amendment filed 6/14/2004 does not comply with 37 CFR § 1.173(b) whereby amendments to the reissue application are with respect to the original Patent. Anything added to the original Patent must be underlined and anything deleted from the original Patent should be bracketed. If applicant deletes subject matter from an added claim, this is NOT part of the original Patent and therefore the subject matter is just not entered (i.e., it is NOT struck through). The Patent for this reissue contained 16 original claims. Therefore, ANY claims over 16 should be underlined in its entirety, i.e., the subject matter is being added to the Patent.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2674

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
